01. ABOUT US

R&R Pods is another division of R&R Services, the Shropshire-based home improvement company established in 1998 and built on over 25 years of trusted workmanship across the region.

Founded and led by Reece Beddows and Ryan Pugh, R&R Pods represents an exciting new chapter of the family business. As the director's son, Reece grew up within R&R Services, while Ryan has been a long-standing and trusted part of the wider team. Together, they are building on the same foundations of quality, fairness and reliability that have defined the company for decades.

A new division built on the same family values, delivering garden spaces with the integrity that built our name.

02. STEP BY STEP GUIDE TO CHOOSING YOUR POD

03. PICK YOUR POD DESIGN

R&R Pods
Garden Rooms

Core Pod One

A perfectly balanced garden pod with central doors, your choice of sliding, bi-fold or French openings, custom lighting and cladding, designed to flood your space with light and elevate your garden.

Core Pod Two

Designed to maximise space without dominating your garden, our Corner Pod tucks neatly into position while opening up the interior. Clean lines, premium cedar or customisable cladding options, and your choice of sliding, bi-fold or French doors create a light-filled, private space that feels bigger than its footprint.

Core Pod Three

Featuring central bi-fold doors with a separate secondary access door, Core Pod Three allows you to create distinct zones within one smart design. Ideal for combining work, leisure or storage in a premium cedar or customisable cladding finish

LOOKING FOR A DIFFERENT DESIGN?

Anything outside of our standard core pod range, you can request a bespoke design consultation where you can work with one of our expert designers to bring your ideas to reality.

PLANNING GUIDELINES

04. SIZE GUIDE

Every R&R Pod is built bespoke, allowing us to design a garden room that fits perfectly within your outdoor space and suits how you plan to use it. Whether you're creating a home office, gym, games room or aesthetics studio, we'll work with you to determine the ideal size and layout for your garden.

DESIGNED AROUND YOUR SPACE

Because every R&R Pod is custom built, we can design a structure that works with the shape, size and layout of your garden while staying within planning guidelines where possible. Our team will guide you through the process to ensure your pod is both practical and compliant.

In many cases, garden pods can be installed without the need for planning permission, provided they fall within permitted development rules. While every property is different, there are a few general guidelines to consider:

Height

- Garden buildings located within 2m of a boundary are typically limited to a maximum height of 2.5m.

Garden Coverage

- Outbuildings and extensions combined should not cover more than 50% of the total garden area (excluding the original house).

Use

- Garden pods are intended for incidental use, such as offices, gyms, studios or leisure spaces rather than separate living accommodation.

05. EXTERIOR FINISH - COMPOSITE

R&R Pods
Garden Rooms

Composite cladding is a great option for customers looking for a modern appearance with minimal maintenance.

Core Pod Three
Composite

COLOURS

Advantages

- Very low maintenance, no painting or staining
- Resistant to rot, moisture and insects
- Consistent colour and finish
- Long lifespan with minimal upkeep
- UV stable
- Ideal for hard to maintain spaces

Considerations

- Less natural look than real timber
- Can expand and contract slightly with temperature changes
- Can retain heat more than timber in direct sunlight
- Unlike timber, you're set to the colour you pick

05. EXTERIOR FINISH - TIMBER

Our two most popular choices are western red cedar for a high end premium feel or Thermowood for a natural feel at a lower cost.

OPTIONS:

Western red cedar

Thermowood

Cedar

- Premium natural appearance with distinctive grain
- Naturally resistant to rot and insects
- Very stable timber with minimal warping
- Higher upfront cost than most cladding options
- Colour will fade without treatment or oiling
- Natural timber means variation between boards

Thermowood

- Natural timber appearance
- More affordable than cedar
- Heat treatment improves durability and stability
- Attractive warm colour tones
- Not as naturally durable as cedar
- May require occasional treatment to maintain colour

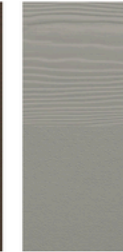

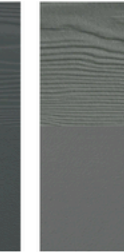

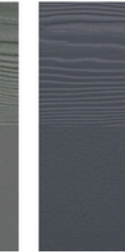

05. EXTERIOR FINISH - FIBRE CEMENT

COLOURS

Fibre cement cladding is a durable exterior cladding material made from a mixture of cement, sand, water and cellulose fibres. The combination of these materials creates rigid boards that are designed to protect buildings from weather while providing a clean, modern exterior finish.

Design Collection a modern statement			Natural Collection making nature part of the home			Expressive Collection creating a characterful home			Classic Collection the epitome of elegance		
											
C01 White (RAL 9003) (NCS S0500-N)	C51 Silver Grey (RAL 7047) (NCS S1500-N)	C05 Platinum Grey (RAL 7047) (NCS S3000-N)	C71 Sand Yellow (N/A) (NCS S3020-Y30R)	C03 Clay Brown (RAL 1019) (NCS S3005-Y20R)	C78 Cocoa Brown (RAL 8025) (NCS N/A)	C72 Brick Red (RAL N/A) (NCS S5030-Y70R)	C54 Pewter Grey (RAL 000-45-00) (NCS S6500-N)	C21 Walnut Brown (RAL 8017) (NCS N/A)	C02 Vanilla White (RAL 1015) (NCS S1010-Y20R)	C07 Chalk White (RAL 9001) (NCS S1005-Y10R)	C77 Pebble Grey (RAL N/A) (NCS S4005-Y50R)
											
C15 Steel Grey (RAL 7031) (NCS S6005-R80B)	C18 Slate Grey (RAL 7024) (NCS S7502-B)	C50 Black (RAL 9011) (NCS S9000-N)	C21 Walnut Brown (RAL 8017) (NCS N/A)	C52 Pearl (RAL 7030) (NCS S4502-Y)	C73 Ocean Blue (RAL 240-50-10) (NCS N/A)	C75 Metal Green (RAL N/A) (NCS S7005-B80G)	C74 Basalt Grey (RAL 7012) (NCS N/A)	C18 Slate Grey (RAL 7024) (NCS S7502-B)	C03 Clay Brown (RAL 1019) (NCS S3005-Y20R)	C76 Tea Green (RAL N/A) (NCS S3005-G80Y)	C10 Sky Blue (RAL 7001) (NCS S3010-B10G)

Advantages

- Very low maintenance, no painting or staining
- Resistant to rot, moisture and insects
- Consistent colour and finish
- 50+ years lifespan
- Excellent fire performance classification
- Highly weather durable

Considerations

- Heavier material
- Less natural appearance
- More complex installation
- Difficult to repaint or alter
- Repairs can be more visible

Brighten Your Space

Let natural light flood in with wide-opening sliding doors that connect indoors and outdoors beautifully.

Versatile and Stylish

Perfect for garden rooms with customisable colours, glazing, and opening styles.

Low Maintenance

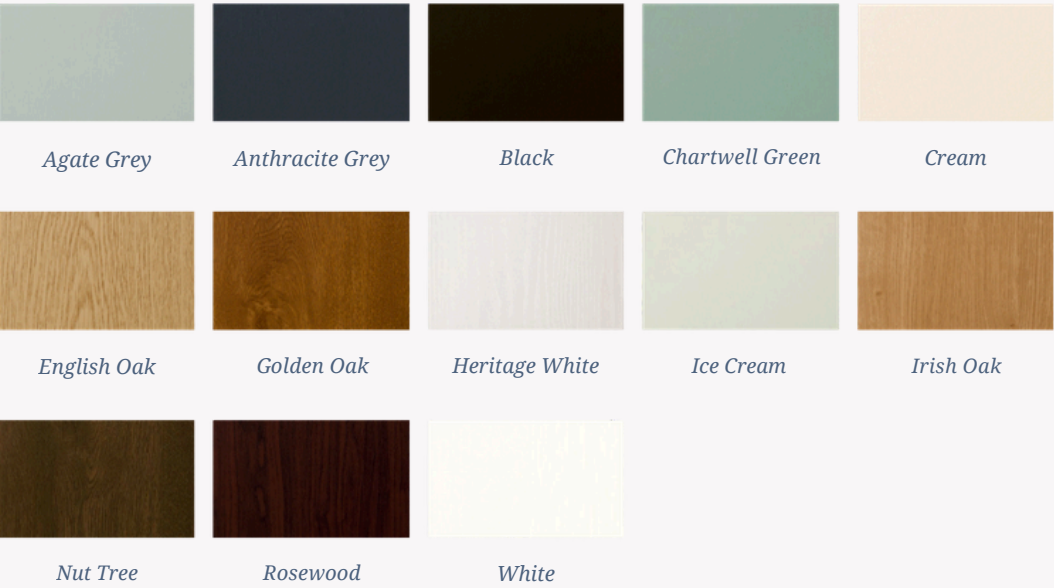

Weather-resistant PVCu frames stay looking great for years - no painting, warping, or fading required.

06. DOORS & WINDOWS FINISH - FRENCH DOORS

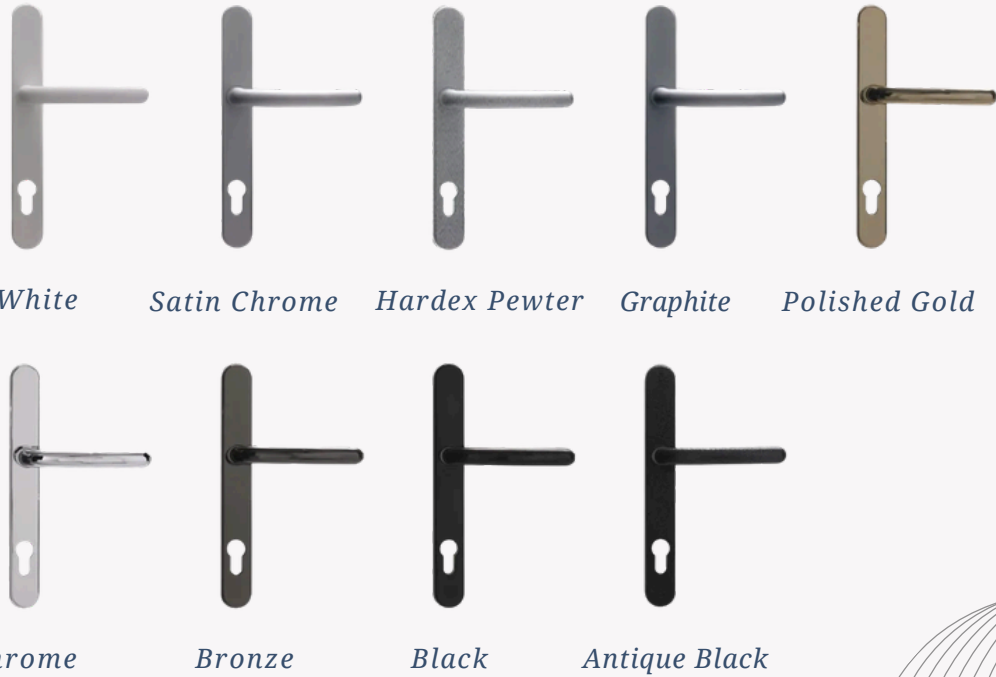

French doors offer a timeless and elegant entrance to your garden room, creating a bright and welcoming feel. With two doors that open outwards from the centre, they provide a wide opening that connects your indoor space with the garden. Combining classic style with practicality, French doors allow plenty of natural light while maintaining a balanced and traditional appearance.

COLOUR OPTIONS

-  **Wide Opening**
Both doors open fully to create a generous entrance and connect the space with the garden.
-  **Versatile and Stylish**
Perfect for garden rooms with customisable colours, glazing, and opening styles.
-  **Low Maintenance**
Weather-resistant PVCu frames stay looking great for years - no painting, warping, or fading required.
-  **Timeless Design**
A classic, balanced style that suits both modern and traditional gardens.

06. DOORS & WINDOWS FINISH - WINDOW OPTIONS

Your choice of windows plays an important role in both the appearance and performance of your garden pod. At R&R Pods, we offer a range of high-quality window options designed to complement your pod while delivering excellent insulation, durability and style. From frame colours and handle finishes to glazing choices such as clear or frosted glass, every detail can be tailored to suit your space. All of our windows are A-rated for thermal efficiency, helping to keep your garden room comfortable all year round while maintaining a clean, modern finish.

07. EXTRAS - ELECTRICS

Every R&R Pod is designed to be fully functional from day one, with a clean, reliable electrical setup tailored to your space.

Standard Electrics Package

- x2 White Double 13A Sockets
- x1 Light switch & Circuit
- x1 Low energy strip light

Additional Upgrades

- Spot lighting
- External Double Socket
- External lighting
- Brass/ Chrome socket upgrade

As every property is different, final costs are subject to a site survey. This allows us to assess the distance to your garden room and the capacity of your existing fuse board, ensuring everything is installed safely, efficiently, and to the highest standard.

07. EXTRAS - INTERNAL WALLS & FLOOR

Standard Internal Finish

- Our standard package includes OSB board to both walls and floor, providing a durable blank canvas, ideal if you're planning to customise or finish the space yourself.

Additional Wall Upgrades

- **UPVC white shiplap walls** – a clean, modern, low-maintenance finish
- **Plastered walls** – smooth, seamless and ready for your own decoration
- **Plastered & fully decorated** – a complete, ready-to-use interior finished to a high standard

Additional Floor Upgrades

- Rubber Gym Flooring
- Laminate
- Luxury Vinyl options
- Tiled

“Whether you’re creating a simple, functional space or a fully polished room, we give you the flexibility to choose the level of finish that works for you.”
